

"Run for Your Life!"

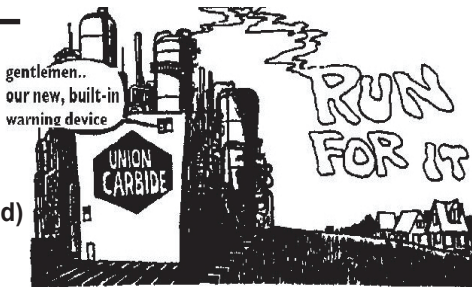

A 3K Race for Human Rights, Corporate Decency, and the 500,000 Victims of the Bhopal Disaster

20,000 people have died to date because of the 1984 chemical leak in Bhopal, India. On April 6, Justice for Bhopal recreates the accident here in Ann Arbor. The route, extending from the Dow Laboratory to the University Hospitals, is meant to dramatize both Dow's ongoing liability for the accident and its association with the University of Michigan. Much of the race will be run through the scenic Nichols Arboretum.

Run from a "gas explosion"
Dash for a treatment facility
Gulp "Bhopal water"

Escape the Grim Reaper
Race through a "Hot Zone"
Win "prizes"
